Victosia, B. C., 10th Feb. 1872. bei amos fell

Monday, March 10th, 1873. " Better Terms." When Nova Scotia had been but short time a member of the Confederation, at the instance, we believe, of the Hon. Joseph Howe, the people of that Province commenced an agitation for bet ter terms than were conceded to them at the time of union. They talked very loudly and made a great noise, and their sentatives to the House of Commons were pledged to vote in a solid body against the Government, unless their demands were complied with. With nineteen members in the House of Commons bent upon extorting better terms from the Government under the penalty of their undivided opposition, which simply meant defeat or acquiescence, it is no wonder the Government, acting upon the the maxim that " discretion was the better part of valor," yielded to the force of circumstances, and gave them all they seled. Consequently, Nova Scotia g t the better terms she asked for, the thin edge of the wedge was entered in the Constitution of the Dominion, and indications are now not wanting that it ON FEBRUARY 1st, 1873, to supply the will be driven home to the very head by the increasing demands of the other Provinces for similar concessions in their bebalf. One false step begets another, and once taken no one can tell whither is will lead. New Brunswick has fared well as a Province of the Dominion, and was never so really prosperous as she is to-day. But she is nevertheless dissatisfied. Her next door neighbor entered the Dominion upon just as favorable terms as she did, but because that Province asked for and insisted upon better terms, she got them, and her success in that direction has not unnaturally aroused the capidity of the New Brunswickers, and created a longing desire for a larger slice from the Dominion loaf than she is fairly entitled to under that constitution to the framing of which that Province was an active and consenting party. But that fact does not appear to stand in the way of New Brunswick demanding better terms. Why should she not have them as well as Nova Scotis ?! She has fifteen representatives in the House of Commons, and their united influence brought to bear upon the Government, at this present critical juncture, when every vote the Government can command will be required to save it from dissolution, will no doubt secure for that Province whatever concessions in the way of better terms its representatives may choose to ask. Manitoba, following in the wake of New Brunswick, according to the latest accounts from that Province, will be found knock- Colonial Hotel and Resing at the door of the House of Commons this session for better terms. What the nature of those better terms will be, for they intend in future to conduct it on the basis of which application is to be made, has not yet transpired. We believe the impression has been very general throughout the Dominion that Munitoba had entered the union upon exceptionally good terms; but having ascertained that there is a possibility, by a proper utilization of the power she possesses in the House of Commons, of getting still better terms, and believing she has just as good a right to demand them as either of the Maritime Provinces, she is about to act upon that conviction, and make the support of her H. O. TIEDEMANN representatives to the Government a sine qua non of their compliance with the demands she is about to make in the direction indicated. And that she will get better terms, who can reasonably doubt? The Dominion Government, by tampering with the constitution to stop the amours of the Nova Scotians, established a precedent than which nothing better calculated to cause endless trouble and discontent. Where the "better better the "better calculated to cause endless trouble and discontent. Where the "better better the "better t and discontent. Where the "better what will be the end of it, is at least problematical. All the other smaller Provinces having asked for and obtained better terms, it is not at all likely that British Columbia will be content without an augmentation of the subsidy she at present receives from the Dominion Government, somewhat in proportion to the increased allowance given to the other members of the Confederation Firm. It will never do to make fish of one Province and flesh of another, but all must be treated alike. But, then, what about Ontario and Quebec? What if they should also take the notion to de-mand better terms? With the overwhelming force with which either of these Provinces could back up any demand they might choose to make upon the Federal Government, however absurd or unreasonable, or prejudicial to the interests of the smaller Provinces, to oppose them would be utterly futile, and they might carry the better terms theory to such an extent as would make the smaller Provinces wish that when they were well off they had let well enough alone. We do not pretend to say that either Quebec or Ontario will ever do any such thing, but that they could do so, and in that way get square, or even more than square, on their masker but grasping neighbors, is ensirely beyond a boubt. The Dominion Government will yet have to do what they should have done in the very outstart with Nova Scotia, hold the Provinces firmly bound to their original agreement, or else take the chances, sooner or later, of breaking up the Confederation altogether, for the constitution of the Got ernment will not be worth the paper it is written upon, if it is to be made a Estate of S. Driard, Deceased. subject to continual aiterations to suit

with a threat that unless its demands

are complied with the whole weight of

its influence shall be used to crush the Government. If such a system is to be the price of Confederation, it will dearly purchased, and be sure to end in early dissolution. This land contains all the essentials necessary for the cultivation of the best description of Sugar Beet, being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large-tracts of equally valuable land can be had on very favorable terms; certainly not exceeding one tenth of the price of similar lands in California, and important consideration, as it will make a large difference in the amount of capi-tal required.

machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 20th, 1872, was valued at over \$100,000; the importation of Molasses, during the same period, amounted to \$18,000. It will, therefore, he seem that a ready market is open for all the sugar and molasses the company can produce. The pulp, or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are chained for beef, muston, &c.

The bost of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at \$50,000, while power is reserved to the Shareholders to increase the working capital to \$100,000, if considered advisable.

HOLLOWAY'S PIL

WONDERFUL CURE OF ASTHMA OF 18 YEARS STANDING

Copy of a Letter from Mr. Fordinand Mc Devett Innkeeper & Gircer, Glonties, Co. Donegal, duted 4th March, 1861. To Professor Holloway.

Sir,-I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spite ing of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at ength pronounced by them to be beyond care; - as a last resource, I was induced o use your Pills and Olntment, and in the short space of a fortnight could walk about, and am now perfectly cared, to the

astonishment of all who knew me. BLOOD TO THE HEAD WITH GIDDINESS. Copy of a letter from Mrs. Mary Foster,

16th 1861.

To Professor Holloway. Sir, - For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times I have scare y been able to walk; after obtaining he best medical advice without effect, I tried your Pills and in less than a week' I was comp'e ely cured. Mrs. Donnal. Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN.

The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early depertures from health. Any mother sately used in all eruptions, chafings and other cutaneous affections to which child-direction which accompany each box of Holleway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross humors. They are, indeed, at all ages, the tried femules friend.
